

CNC 砂轮

CNC Grinding Wheel

主要特点: 完美的加工质量, 适用于快速进刀的高效磨削加工, 耐磨性及形状保持性好。

适用加工材料: 主要适用于整体硬质合金、金属陶瓷、高速钢、不锈钢钻头、铣刀和铰刀等数控刀具的磨削。

Main features : Perfect processing quality , High efficient grinding with fast feeding , Good wear resistance and shape keeping.

Application: Mainly used for the grinding of solid carbide, cermet, high speed steel, stainless steel drill, milling cutter and reamer.
